# phos-stop plus<sup>™</sup>

**NEW  
& IMPROVED**  
Now More Than  
**2X Stronger**

- Prevents and removes phosphates and orthophosphates
- Unlike ordinary phosphate removers, also prevents metal stains (including manganese and iron).
- Not pH dependent; works in wide pH range.
- Perfect for pool openings and closings
- Works with all pool sanitizer systems.

**New and Improved Phos-Stop Plus** from Jack's Magic represents a true breakthrough in keeping your swimming pool free of phosphates, orthophosphates, and metal stains. Unlike ordinary phosphate removers, **Phos-Stop Plus** offers a powerful combination of phosphate removers and preventatives plus stain preventatives to protect your pool from the formation of orthophosphates and metal staining – all in one highly effective product. **Phos-Stop Plus** removes more than 2,000 ppb of phosphates which is greater than existing phosphate levels typically found in most swimming pool water. **Phos-Stop Plus** is not pH dependent so it works effectively in a wide pH range. **Phos-Stop Plus** is ideal for pool openings and closings; it has been specially formulated to protect against phosphates and metal stains the entire time the swimming pool is closed. **Phos-Stop Plus** works with all pool sanitizer systems.

**DIRECTIONS FOR USE: Maintenance / Prevention:** With Pump on, add **Phos-Stop Plus** directly to swimming pool water at a weekly rate of 6 ounces per 15,000 gallons of pool water. During each weekly application, allow water to circulate for at least 4 hours before turning pump off. Monitor filter pressure and clean filter as needed. **Phosphate Removal:** With pump on, add **Phos-Stop Plus** directly to swimming pool water at a rate of 1 quart per 15,000 gallons of pool water to remove phosphates from swimming pool water. Allow water to circulate for at least 4 hours before turning pump off. Monitor filter pressure and clean filter as needed. Please Note: In swimming pool water with excessively high levels of phosphates and/or orthophosphates, a second application may be necessary. **For Pool Openings and Closings:** With pump on, add **Phos-Stop Plus** directly to swimming pool water at a rate of 1 quart per 15,000 gallons of pool water. Allow water to circulate for at least 4 hours before closing pool. If opening pool, also monitor filter pressure and clean filter as needed.

**CAUTION: KEEP OUT OF REACH OF CHILDREN: Warning:** Skin and eye irritant; avoid contact with eyes, skin, and clothing. Avoid Inhalation. Wash thoroughly after handling. For skin and eyes, flush immediately with water for 15 minutes; seek professional medical care if condition persists. If ingested, DO NOT INDUCE VOMITING; rinse with copious amounts of water and milk, and seek professional medical assistance immediately.
