New!

TILE, GROUT, VINYL LINER & FIBERGLASS CLEANER

the tile plus stuff[™]

- power gel formulation adheres to tile, grout, vinyl liner, and fiberglass swimming pool surfaces for maximum cleaning
- fast-acting, visible cleaning results; removes scale, metal stains (including rust), oils, and cosmetics
- helps restore a “like new look” to tile, grout, vinyl liners and fiberglass

SIZES

32 oz.

4 oz.

the tile plus stuff contains a unique specially developed multi-acid formulation that is highly viscous. Its gel-like properties allow it to adhere to tile, grout, vinyl, and other pool surfaces for maximum cleaning performance. Its handy "flip top" applicator makes product use simple and convenient. **the tile plus stuff** begins working immediately; its visible cleaning action removes scale, metal stains (including rust), oils, and cosmetics. **the tile plus stuff** is tough on stains but won't harm grout or etch tile when used as directed. This product is ideal for removing corrosive salts and stains from ceramic tile, helping to restore a "new tile look." **the tile plus stuff** is compatible with all pool sanitizer systems.

DIRECTIONS FOR USE

Please note: It is recommended that gloves be worn when using this product.

1. Wet surface to be treated, with water, prior to application of this product.
2. Apply product directly to stain/scale.
3. Allow product to react with affected area for 1-2 minutes then vigorously scrub tile, grout, vinyl, or fiberglass with appropriate *scrub* brush. IMPORTANT: Do not leave on tile, grout, vinyl, or fiberglass for more than 2 minutes.
4. Completely rinse product from treated area.
5. For particularly stubborn stains, a second application may be necessary.
6. Use product weekly, or as needed, to keep area looking new.

WARNING

This product contains a combination of muriatic and phosphoric acids. Eye and skin irritant. Avoid contact with skin, eyes, or clothing. Wear rubber gloves, goggles, and an impervious apron when using. Do not inhale fumes or swallow liquid. Rinse container thoroughly before discarding, to prevent accidents. Do not mix with other chemicals.

FIRST AID

EYE CONTACT:

Hold eye open; rinse slowly and gently for 15-20 minutes with fresh water. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a doctor for treatment advice.

IF ON SKIN:

Take off contaminated clothing. Wash skin immediately with soap and water for 15 minutes, then flush with water for at least 5 minutes. Call a doctor for treatment advice.

IF SWALLOWED:

Immediately drink 2 large glasses of water and call a doctor for treatment advice. Do not give anything by mouth to an unconscious person.

IF INHALED:

Move person to fresh air. If breathing is difficult administer oxygen. Call a doctor for treatment advice.
