JACK'S MAGIC® CLEAN WATER SOLUTION THE NATURAL CLEAN STUFF™

The Natural Clean Stuff is a "super strength" natural, 100% biodegradable enzyme that prevents and removes swimming pool water build up (scum line) caused by body oils, lotions, and suntan oils. This highly effective product works well with all major swimming pool sanitizer systems, and will not affect water balance. **The Natural Clean Stuff** is non-toxic and non-irritating, making it safe to swim during and after product treatment. **The Natural Clean Stuff** keeps working even in higher chlorine residuals. **The Natural Clean Stuff** improves filter efficiency by extending filter cycles and reducing filter build up.

DIRECTIONS FOR USE

Initial Dose:

The Natural Clean Stuff should initially be added to the skimmer or directly to the swimming pool water at a rate of 1 ounce per 1,000 gallons of pool water.

Maintenance:

A maintenance dose of 1/2 ounce per 1,000 gallons of pool water should be added every 10-14 days. (PLEASE NOTE: The enzyme digesting action is highly effective, but slow; it may take two weeks to noticeably remove all of the oils from the pool water).

DO NOT DOSE **The Natural Clean Stuff** AT THE SAME TIME AS A CLARIFIER OR FLOCCULENT TYPE PRODUCT, AS A DIFFICULT SEDIMENT WILL LIKELY RESULT.

CAUTION: KEEP OUT OF REACH OF CHILDREN
