# the spa cover stuff™

Featuring

*All you need to keep your spa cover looking its best.*

Until now, spa owners had several limited choices for cleaning and protecting their spa cover from dirt, oil, and the damaging effect of UV rays: They could use a spa cover cleaner, multi-purpose vinyl cleaner, or some automotive or household product, and hope it protected their cover. Or, they could spend considerable time and effort cleaning and conditioning their cover. And unfortunately, many products that claim to "protect" vinyl can actually damage vinyl, and greatly shorten the life of a spa cover.

But now, there's..  
**the spa cover stuff™**

This premium wipe product contains a *unique formulation specially developed for spa covers.*
