JACK'S MAGIC® THE SAPPHIRE STUFF® FOUR-BY-ONE CLARIFIER

The Sapphire Stuff® produces super clear water through a highly effective "4 x 1" action: the rich sapphire blue formulation combines a powerful clarifier, sequestering agent, chelating agent, and flocculant in one convenient product. This fast-acting 4 x 1 clarifier product requires no pre-mixing, will not affect pH, and is compatible with all swimming pool sanitizer systems. **The Sapphire Stuff** helps prevent scaling, staining, scum line buildup, and foaming in swimming pools (and spas). This product removes oils, soaps, metals, cosmetics, and other particulate matter that can cause staining and discoloration in pools and spas. **The Sapphire Stuff** also increases filter efficiency.

Note: This product is intended for use in swimming pools and spas only.

DIRECTIONS FOR USE

1. If initial application, clean or backwash pool filter (according to manufacturer's guidelines) prior to adding product to the swimming pool water.
2. Initial dosage is 1 ounce per 5,000 gallons of swimming pool water.
3. With pump on and water circulating, apply product directly to the swimming pool.
4. Allow at least 6 hours of continuous circulation after application of product for best results.
5. If after 72 hours, water is cloudy and/or discolored, reapply 1 ounce per 5,000 gallons, running pump continuously until water is clear.
6. Maintenance dosage under normal conditions is 1 ounce per 5,000 gallons applied once every 2 weeks. This will produce a beautiful pool with sparkling clear water.

CAUTION: KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Danger: Corrosive to eyes and skin. Causes eye irritation. Avoid contact with eyes or skin. Wear rubber gloves and safety glasses or goggles when handling. Not for internal use. If swallowed, rinse oral cavity, drink large amount of water and seek medical attention. For skin and eyes, flush with water for 15 minutes. For eyes, seek medical attention.
