1. COMPANY AND PRODUCT IDENTIFICATION
Product Name: The Filter Fiber Stuff
Synonyms: N/A
Product Codes: JMFIBER9, JMFIBER18, JMFIBER36, JMFIBER22, JMFIBER44
Company Name: Jack's Magic Products, Inc.
12435 73rd Ct.
Largo, FL 33773
Substance: Cellulose
Emergency Telephone: 1-800-424-9300
Recommended use: As a filtration matrix for industrial and food applications.

2. HAZARDS IDENTIFICATION
Emergency Overview
WARNING! MAY FORM COMBUSTIBLE DUST CONCENTRATIONS IN AIR (DURING PROCESSING)

3. COMPOSITION, INFORMATION ON INGREDIENTS

4. FIRST AID MEASURES
Eye contact: Flush eyes with large amounts of water. No acute hazards known.
Skin contact: No acute hazards known.
Ingestion: No acute hazards known.
Inhalation: No acute hazards known. Remove to fresh air.

5. FIRE AND EXPLOSION DATA
Explosion: Avoid generating dust. Fine dust dispersed in air in sufficient concentrations and in the presence of an ignition source is a potential dust explosion hazard. Extinguishing media: Water in spray jet, CO₂.

6. ACCIDENTAL RELEASE MEASURES
Dust deposits should not be allowed to accumulate on surfaces, as they may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e. clearing dust surfaces with compressed air.)

7. HANDLING AND STORAGE
Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION
It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents, an explosion suppression system, or an oxygen-deficient environment. Ensure that the dust-handling systems are designed in a manner to prevent the escape of dust into the work area. Use only appropriately classified electrical equipment and powered industrial trucks.

9. PHYSICAL AND CHEMICAL PROPERTIES
Appearance: White fibers
Char Point: 180°C
Odor: None
Ignition Temp: 230°C
Odor Threshold: N/A
Vapor Pressure: N/A
Evaporation Rate: N/A
Auto ignition Temp: N/A
pH: Average 7.0
Density: 0.5 g/cm³
Melting/Freezing point: N/A
Flash Point: N/A
Initial Boiling Point & Range: N/A
Solubility: Insoluble in water
Partition coefficient: n-octanol/water: N/A
Vapor density: N/A

10. STABILITY AND REACTIVITY
Stability: Stable

11. TOXICOLOGICAL INFORMATION
Possible transient irritation to eyes with very high contact. Non-toxic.

12. ECOLOGICAL INFORMATION
Bio-degradable. No known ecological effects.

13. DISPOSAL CONSIDERATION
No special requirements.

14. TRANSPORT INFORMATION
Not regulated as hazardous material for transport. No UN number.

15. REGULATORY INFORMATION
EU Classification: 9004-34-6 classified as non-hazardous
WHMIS: Not determined
TSCA: Listed on inventory
PA, NJ & MA: Listed

16. OTHER INFORMATION
See NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids; for safe handling. Prepared: May 2018
